

# Accounting Figures - Website Development Summary

Prepared by OptimaCoreTech | Date: October 30, 2025

## 1. Project Overview

OptimaCoreTech developed a complete website for Accounting Figures, a professional accounting and tax advisory firm based in Beveren near Antwerp. The goal was to create a modern, responsive, and SEO-optimized online presence that reflects the company's expertise and reliability.

## 2. Pages Delivered

Page	Description
Home	Introduces the firm, mission, and services overview.
About	Company profile and values.
Services	Details of accounting, tax, and financial services.
Contact	Contact form, address, and Google Maps integration.

## 3. Technologies Used

- HTML5, CSS3, Node Js, Angular, Bootstraap, Formspre JavaScript (Vanilla JS)
- Fully responsive design compatible with all modern browsers
- SEO meta tags, structured data (JSON-LD), and sitemap.xml integrated

## 4. Hosting & Domain

The domain 'accountingfigures.com' was successfully transferred and configured. SSL certificate (HTTPS) is active and functional. The website is hosted on a reliable and secure platform with optimized performance settings.

## 5. SEO Optimization

Initial SEO setup has been implemented, including on-page optimization, meta descriptions, local keywords ('boekhouder Antwerpen', 'fiscale diensten Beveren'), and schema markup for local business visibility. The website is submitted to Google Search Console and indexed.

## 6. Maintenance & Recommendations

Regularly update content and blog articles to maintain strong SEO rankings. Perform monthly backups and monitor analytics to track visitor engagement. OptimacoreTech offers optional maintenance and SEO packages for ongoing support.
